

To Uninstall

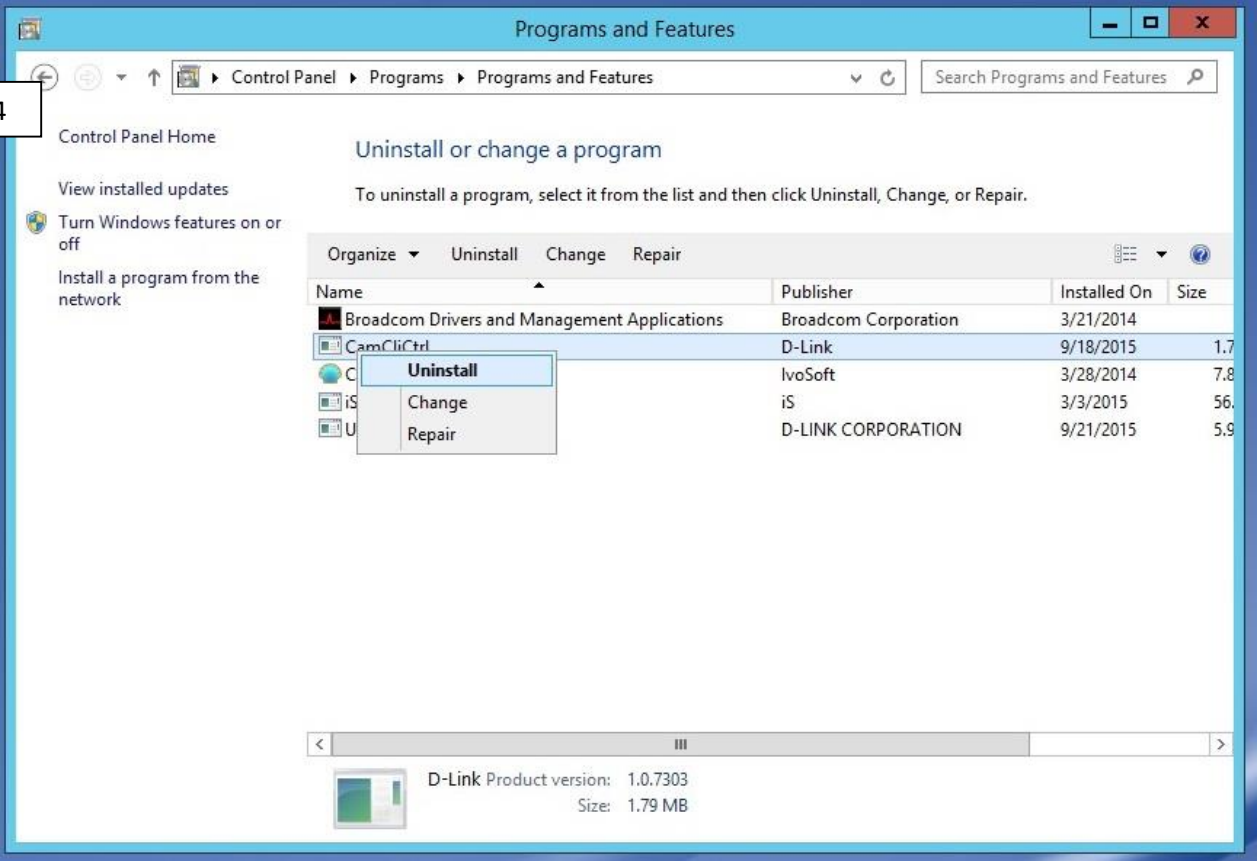

1. Click on the Start button to bring up the Start Menu
2. Click on the Control Panel menu option on the right side of the Start Menu to bring up the Control Panel
3. With "View by:" set to Category, click the "Uninstall a program" text underneath the "Programs" option
4. After a few seconds, a list of programs should appear along with the program to be uninstalled appearing on the list, right click on the program and click uninstall
5. A window may popup asking if you are sure you want to uninstall the program, click yes and follow any additional steps
6. After the program has been uninstalled, it should no longer appear in the list and you may close the "Programs and Features" window.

Step 3

Step 4

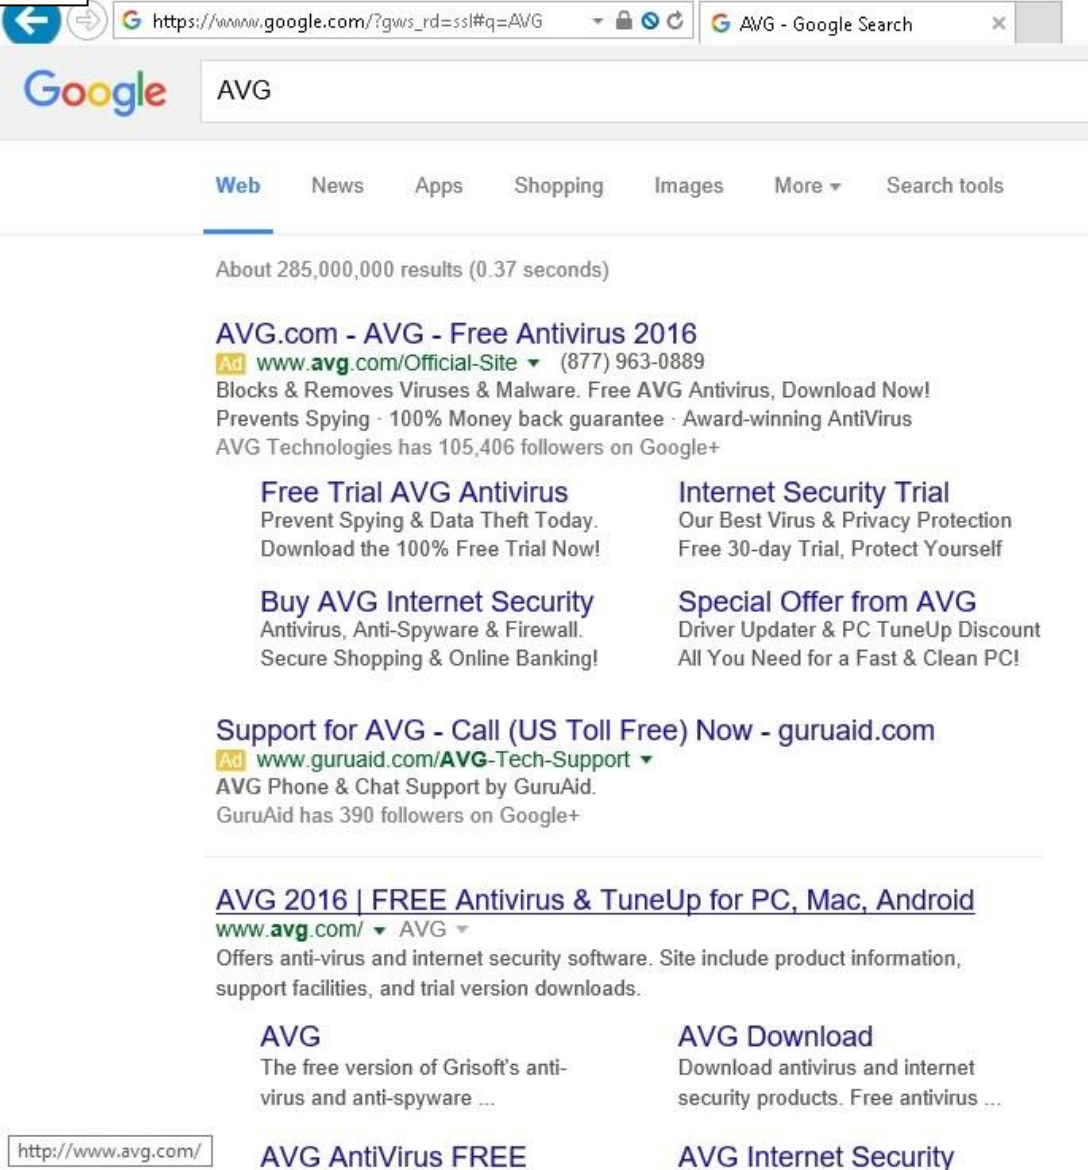

Step 5

To Install

1. Download the program by it finding online using Google or other search engine
2. For example, searching for "AVG" should direct you to www.avg.com where you can click the Free Download button twice to get to the download
3. After the download has been saved, run the program by double clicking on the file
4. Follow the onscreen instructions and the program will be installed

Step 1

The screenshot shows a Google search for "AVG". The search bar contains "AVG" and the results show approximately 285,000,000 results found in 0.37 seconds. The top result is an advertisement for "AVG.com - AVG - Free Antivirus 2016" from www.avg.com/Official-Site, which offers a free trial and various security features. Below this are several other advertisements, including one for "Support for AVG - Call (US Toll Free) Now - guruaid.com" and another for "AVG 2016 | FREE Antivirus & TuneUp for PC, Mac, Android". At the bottom, there are two more search results: "AVG" and "AVG Download". A small box in the bottom left corner contains the URL <http://www.avg.com/>.
